

When it comes to Quality, We've got an Exclusive.

Celebrating 25 years

■ For immediate release by Country Coach

Junction City, OR -- The news is out and you'll only find it here. Customer driven quality. It comes with the territory when you manufacture the best for 25 years. And at the helm for all this time, Bob Lee has been chairman and RVer in chief. In fact, he's been motorcoaching for over 35 years, listening to people. Collecting the best ideas. You might say he's got the scoop on what people want in their luxury motorcoach.

Take the redesigned 1999 Magna—quality inside and out. You won't believe your eyes when you see the slide that hides in the Indulgence floorplan. The interior overhead design of this galley slide out creatively conceals the slide room—expanding livability. The Magna's fabulously conceived front end is also a headline grabber. This sleek new exterior design features a chrome package that includes European style headlights.

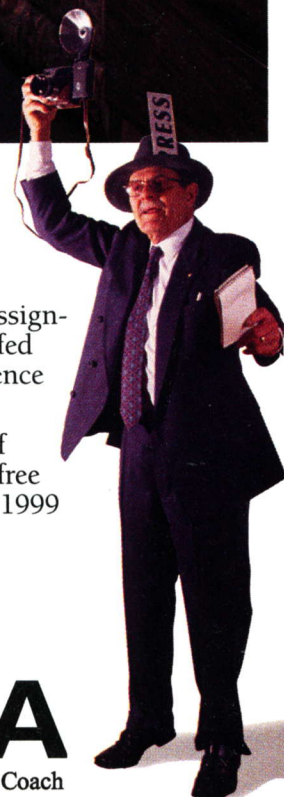

And talk about newsmakers, the Caterpillar C-10 385HP diesel pushing engine with 1350 lbs/ft of torque or the standard Cummins ISC 350HP diesel

with 1050 lbs/ft torque will get your Magna to its next assignment. To top it off, we've beefed up the GVWR on the Indulgence floorplan to 36,300 lbs.

Ready to gather some news of your own? Then call the toll free phone number below for the 1999 color brochure.
